Education

Boston University College of Arts and Sciences, Boston, MA May 2026

Combined Bachelor of Arts in Economics & Master of Science in Economics BA/MS

GPA: 3.9/4.0 - Magna Cum Laude with Honors

Activities: D1 Women's Rowing Team, Undergraduate Economics Association Vice President

Awards: Full Athletic Scholarship, Undergraduate Department Prize for Distinction and Notable Intellectual Attainment in Economics, Dean's List (all terms), Leadership Award Athlete 2024

Relevant Coursework: Advanced Microeconomics and Macroeconomics, Linear Algebra, Intro to Multivariate Calculus and Optimization, Statistics, Econometrics, Monetary Economics, Environmental Policy, Behavioral Economics, Portfolio Theory, Economics of East Asia, Honors Thesis

Experience

Research Assistant for Professor Andrea Vedolin, Boston, MA January 2025 – June 2025

Researcher at Boston University

- Researching term structure of expectations and deviations from expectation hypotheses, analyzing risk premium and potential forecasting biases, such as categorical thinking, in the fixed income market;
- Leveraging STATA to conduct regression analysis of survey data and FRED indicators and developing Python code for yield curves bootstrapping and financial data web-scraping.

Research Assistant for Professor Leander Heldring, Chicago, IL June 2025 – August 2025

Researcher at Northwestern University

- Analyzed a large-scale panel dataset of Korean firms, producing summary statistics, visualizations, and diagnostic checks of Chaebol membership, ownership structure, industry sector, and alumni-based networks to explore heterogeneity in the value of political ties and firms' performance, and inform identification strategies;
- Designed and executed econometric analyses to estimate the causal effect of political connections on firm performance in South Korea, exploiting the 1979 political shock as a natural experiment. Applied OLS fixed-effects models, event studies, and the advanced de Chaisemartin & D'Haultfoeuille (2024) methodology in STATA.

Research Assistant for Professor Nicolas Serrano Velarde, June 2025 – July 2025
Madrid, Spain

Researcher at CEMFI

- Executed full-cycle data management: cleaned, merged, and maintained large-scale datasets using STATA, and produced summary statistics in maps formats leveraging geographical data;
- Conducted empirical analysis, including event studies, to evaluate causal impacts on Brazil's informal labor market, competition, and firm dynamics, leveraging exogenous policy variations for identification;
- Engaged in advanced research seminars and collaborated with the Professor's co-author at the Central Bank of Brazil to analyze and integrate the institutional framework into our identification strategy and research design.

Federal Reserve Intercollegiate Challenge, Boston, MA April 2023 – May 2025

Competitor and Organizer

- Executed extensive economic analysis of current economic conditions, housing, financial, and labor markets using the Bloomberg Terminal, the FRED Database and relevant news and press releases;
- Evaluated significant economic risks and forecasted short term and long-term economic indicators to develop a non-conventional monetary policy action, modelling the Federal Open Market Committee;
- Competed against hundreds of universities by presenting analyses to an expert committee, securing a networking opportunity at the Central Bank in Washington, DC.

Leadership

Division I & Italian National Team Rower

June 2021 – Present

Team Leader & National Team Athlete

- Successfully balancing an intensive athletic commitment with a rigorous academic workload, developing exceptional discipline, resilience, teamwork, and time management skills while maintaining peak performance under pressure;
- Achieved success at elite international and collegiate levels: won silver and bronze medals at the European Junior Championship, placed seventh at the U23 World Rowing Championship, earned gold and silver medals in the Patriot League Championship, and raced in the Henley Royal Regatta and NCAA Championships;
- Led the Boston University D1 rowing team in 2024-2025, ensuring communication between athletes and coaches to maintain performance standards, support an inclusive culture, and represent the team at public speaking engagements;

Undergraduate Economics Association

May 2024 – Present

Vice President

- Managing students-faculty connections, organizing academic events, such as research presentations and panel discussions, mentorship programs and career development workshops, to foster curiosity within our BU Economics community;
- Managing recruitment and coordination of the Federal Reserve Intercollegiate Challenge, ensuring strong university representation while collaborating with the department to establish a new related course.

Additional Information

Languages: Fluent English, Native Italian, Intermediate German, Beginner French and Spanish

Technical Skills: STATA, R, Python, $\text{\LaTeX}$, Microsoft Office (Word, PowerPoint, Excel), Github, base C++

Certificates: Bloomberg Market Concept, Bloomberg Finance Fundamentals

Interests: Photography, Philosophy, Modern Art, Quantum Physics, Nature, Swing Dancing
